BRAND KIT

DataForce

DataForce is TransPerfect's AI data business: data collection, annotation, model evaluation and human-in-the-loop services for LLMs, computer vision and speech. The system is the most technical of the divisions — dense stat grids, monospaced numerals, Green and Aqua pops that signal precision.

ALWAYS

- Use approved colors only. White on dark, black on bright. No off-brand color fills.
- Keep clear space (1.5H). H = height of the T. No other elements inside that zone.
- Show the contributor network: annotators, recording rigs, field collection.
- Real workspaces and real devices — the work is human, so show humans.

NEVER

- Never resize or reorder elements. Wordmark and symbol proportions are fixed.
- Never rotate, skew or distort. Always upright and unstretched.
- Never add effects or keylines. No shadow, glow, stroke, gradient overlays.
- Never flip. Mirror image is not permitted.

READING THIS DOCUMENT

Outlined pills are live download links. Contrast badges use WCAG 2.x. "Proof first" values need a printer proof before production.

01 Identity & positioning

AI Data Services · Brand Guidelines

Human intelligence for machine learning.

DataForce is TransPerfect's AI data business: data collection, annotation, model evaluation and human-in-the-loop services for LLMs, computer vision and speech. The system is the most technical of the divisions — dense stat grids, monospaced numerals, Green and Aqua pops that signal precision.

Human in the loop	People judge quality; tooling only speeds them up.
Consent and care	Contributors are informed, paid fairly and credited.
Measured quality	Every dataset ships with its own accuracy record.
Representative data	Coverage across language, accent, region and context.
Reproducible	Method documented so a result can be repeated.

02 Logos & usage

DataForce lockup follows the master rules

DataForce uses the TransPerfect wordmark with a division line beneath it. All master logo rules apply — clear space, color use, no distortion. The division line is always secondary in weight to the wordmark.

Do and don't

DO

Use approved colors only. White on dark, black on bright. No off-brand color fills.

DO

Keep clear space (1.5H). H = height of the T. No other elements inside that zone.

DON'T

Never resize or reorder elements. Wordmark and symbol proportions are fixed.

DON'T

Never rotate, skew or distort. Always upright and unstretched.

DON'T

Never add effects or keylines. No shadow, glow, stroke, gradient overlays.

DON'T

Never flip. Mirror image is not permitted.

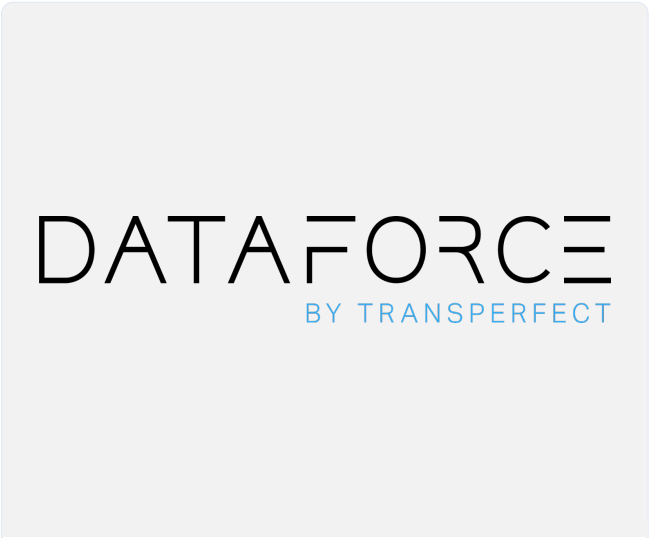

DON'T

Never change the typeface. The wordmark is a fixed lockup.

DON'T

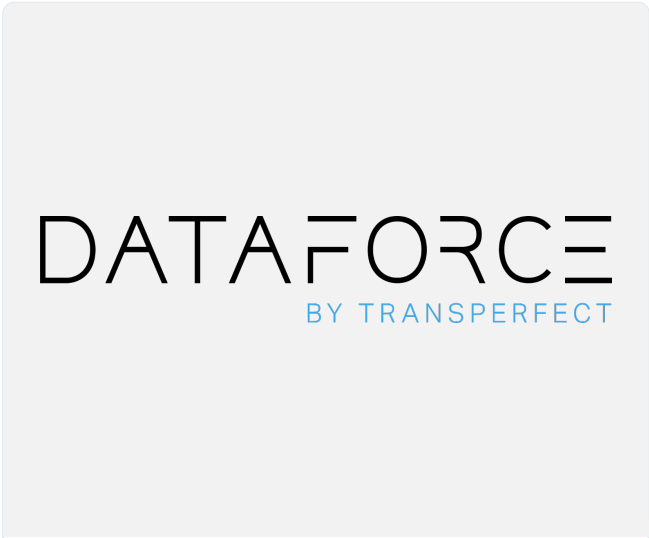

Never place over complex backgrounds. Use solid/quiet surfaces; over imagery add a wash.

03 Colour & accessibility

Dense data needs contrast, not more colour

Numerals and axis labels are Blue 800 #03002C on light, white on Blue 800 — never an accent.

Green #A6FA87 and Aqua #A1FBF9 fill bars, cells and callout frames; each series also carries a label.

Adjacent series keep a 3:1 contrast against each other so the chart reads in greyscale print.

Never rely on red/green alone for pass and fail — add the word.

Contrast is WCAG 2.x for text in this colour on white / ink. AA = 4.5:1 body text; AA large = 3:1 for 18pt+ or bold 14pt+.

04 Typography

Primary	Geist Sans. Web: Verdana.
The most numeric of the divisions	stat figures run at Heading XL or XXL with tabular numerals, units at Body S beneath, and table text no smaller than 12px in print. Keep one figure per cell so the scale can stay large.

Type specimens

Heading XXL
56px · 400 · Geist

Global content for every mind

Heading XL
48px · 400 · Geist

Global content for every mind

Heading L
32px · 500 · Geist

Global content for every mind

Heading M
24px · 500 · Geist

Global content for every mind

Body XL
24px · 400 · Geist

We see responsible use of data as a powerful tool for creating positive change.

Body L
20px · 400 · Geist

We see responsible use of data as a powerful tool for creating positive change in the world.

Body M
18px · 400 · Geist

We see responsible use of data as a powerful tool for creating positive change in the world.

Body S
16px · 400 · Geist

We see responsible use of data as a powerful tool for creating positive change in the world.

Body XS
14px · 400 · Geist

We see responsible use of data as a powerful tool for creating positive change in the world.

05 Photography & visual direction

Contributor networks, annotators at work, capture rigs, model dashboards. Prefer authentic scenes over stylized AI stock.

Stat grids, distribution charts, dense number blocks. Green signals accuracy; Aqua and Lavender frame model callouts.

Do and don't

DO
Show the contributor network: annotators, recording rigs, field collection.

DO
Real workspaces and real devices — the work is human, so show humans.

DO
Keep dashboards legible; crop to one readable metric rather than many.

DON'T

No synthetic AI imagery — neural swirls, android faces, glowing grids.

DON'T

Never show real contributor faces or data without recorded consent.

DON'T

Never invent a chart shape that no dataset behind it supports.

06 Iconography

Hero Icons — soft, rounded, human

We use Hero Icons as the foundation of our icon system: a clean, open-source library aligned with modern UI standards. Small adjustments reflect TransPerfect's visual language. Icons serve both function and brand — they guide the eye, provide quick visual context and bring balance to text-heavy layouts. Their soft, rounded shapes complement the brand visuals, remaining clear at small sizes while expressing a friendly, human tone. Download the approved icon bank on Basecamp and re-download regularly as new icons are added.

07 Applications & brand family

AI Data Services

Data Collection · Annotation · Model Evaluation · HITL · Voice & Speech

Facebook, LinkedIn & X

An all-white logo is preferred.

Never use a full-color logo on an image.

Use an all-black or all-navy logo on a light photo for visibility.

A side-by-side logo lockup is preferred.

Keep the logo in the bottom-right corner.

Instagram

Do not watermark Instagram images — watermarks feel redundant and disingenuous to the platform.

Strive for authentic, behind-the-scenes-style interactions with followers.

Let imagery lead; brand shows through tone, color and composition rather than a logo overlay.

DataForce hero motion

The DataForce brand loop is the approved motion background for DataForce covers, statements and full-bleed modules. Play it muted and looping, keep type on a solid or gradient scrim so contrast holds, and never recolour or crop the loop below a 16:9 frame.
