BRAND KIT

GlobalLink

GlobalLink is TransPerfect's translation-technology platform: connectors, workflow automation and continuous localization for product, marketing and support content. The visual system leans into the product side of the master brand — cleaner surfaces, more Aqua and Lavender, and diagrammatic visuals that read as software rather than campaign.

Blue 500	Blue 800	Aqua	Lavender	Lavender	Green	Yellow	Peach	Pink	Red
#003FC7	#03002C	#A1FBF9	#C2A3FF	#C2A3FF	#A6FA87	#FFEB66	#FF9B70	#EC388A	#E53D2E

ALWAYS

- Use approved colors only. White on dark, black on bright. No off-brand color fills.
- Keep clear space (1.5H). H = height of the T. No other elements inside that zone.
- Lead with the product: real UI, real connector maps, real dashboards.
- Show people alongside the screen, never instead of it.

NEVER

- Never resize or reorder elements. Wordmark and symbol proportions are fixed.
- Never rotate, skew or distort. Always upright and unstretched.
- Never add effects or keylines. No shadow, glow, stroke, gradient overlays.
- Never flip. Mirror image is not permitted.

READING THIS DOCUMENT

Outlined pills are live download links. Contrast badges use WCAG 2.x. "Proof first" values need a printer proof before production.

01 Identity & positioning

Language Technology Division · Brand Guidelines

Continuous localization, engineered.

GlobalLink is TransPerfect's translation-technology platform: connectors, workflow automation and continuous localization for product, marketing and support content. The visual system leans into the product side of the master brand — cleaner surfaces, more Aqua and Lavender, and diagrammatic visuals that read as software rather than campaign.

Connected	Every product talks to the platform — no dead ends.
Continuous	Localization runs with the release, not after it.
Measurable	Quality, cost and turnaround are visible, not claimed.
Open	Connectors and APIs meet customers in their own stack.
Human-checked	Automation accelerates people; it never replaces review.

02 Logos & usage

GlobalLink lockup follows the master rules

GlobalLink uses the TransPerfect wordmark with a division line beneath it. All master logo rules apply — clear space, color use, no distortion. The division line is always secondary in weight to the wordmark.

Do and don't

DO
Use approved colors only. White on dark, black on bright. No off-brand color fills.

DO
Keep clear space (1.5H). H = height of the T. No other elements inside that zone.

DON'T
Never resize or reorder elements. Wordmark and symbol proportions are fixed.

DON'T
Never rotate, skew or distort. Always upright and unstretched.

DON'T
Never add effects or keylines. No shadow, glow, stroke, gradient overlays.

DON'T
Never flip. Mirror image is not permitted.

DON'T
Never change the typeface. The wordmark is a fixed lockup.

DON'T
Never place over complex backgrounds. Use solid/quiet surfaces; over imagery add a wash.

03 Colour & accessibility

Diagrams carry the accents; text stays Blue 800 or white

Aqua #A1FBF9 and Lavender #C2A3FF are node fills, edge highlights and surface tints — never label text.

Node labels are Blue 800 #03002C on a light node, white on Blue 500 #003FC7 or darker.

Connector lines need a 3:1 contrast against their background to read at print size.

Product-status colour always carries a word as well as the colour.

Contrast is WCAG 2.x for text in this colour on white / ink. AA = 4.5:1 body text; AA large = 3:1 for 18pt+ or bold 14pt+.

04 Typography

Product-first application of the shared scale: Heading L and M do most of the work, Heading XXL is reserved for covers. UI captions sit at Body S and never below 14px. Numerals in stat blocks keep tabular spacing so columns align.

Primary	Geist Sans. Web: Verdana.

Type specimens

Heading XXL

Global content for every mind

Body XL
24px · 400 · Geist

We see responsible use of data as a powerful tool for creating positive change.

Body L
20px · 400 · Geist

We see responsible use of data as a powerful tool for creating positive change in the world.

Body M
18px · 400 · Geist

We see responsible use of data as a powerful tool for creating positive change in the world.

Body S 16px · 400 · Geist	We see responsible use of data as a powerful tool for creating positive change in the world.
Body XS 14px · 400 · Geist	We see responsible use of data as a powerful tool for creating positive change in the world.

05 Photography & visual direction

Isometric flows, node-and-edge graphs, ambient Aqua→Lavender gradients. Avoid heavy people-first hero shots — GlobalLink is a platform brand.

Product-first imagery	UI captures, connector diagrams, and calm office scenes where technology is present but not the hero. Prefer light surfaces with Aqua and Lavender ambient washes.

Do and don't

DO
Lead with the product: real UI, real connector maps, real dashboards.

DO
Show people alongside the screen, never instead of it.

DO
Keep surfaces light and uncluttered so diagram lines stay readable.

DON'T
No abstract AI stock — glowing brains, robot hands, floating code.

DON'T
Never mock up UI with off-brand colour; screens use the product palette.

DON'T
Never crop a product screen so tightly that it stops being legible.

06 Iconography

Hero Icons — soft, rounded, human

We use Hero Icons as the foundation of our icon system: a clean, open-source library aligned with modern UI standards. Small adjustments reflect TransPerfect's visual language. Icons serve both function and brand — they guide the eye, provide quick visual context and bring balance to text-heavy layouts. Their soft, rounded shapes complement the brand visuals, remaining clear at small sizes while expressing a friendly, human tone. Download the approved icon bank on Basecamp and re-download regularly as new icons are added.

07 Applications & brand family

GlobalLink Products

Enterprise · Live · Portal · Now · Strings · Web · CCMS

Facebook, LinkedIn & X

An all-white logo is preferred.

Never use a full-color logo on an image.

Use an all-black or all-navy logo on a light photo for visibility.

A side-by-side logo lockup is preferred.

Keep the logo in the bottom-right corner.

Instagram

Do not watermark Instagram images — watermarks feel redundant and disingenuous to the platform.

Strive for authentic, behind-the-scenes-style interactions with followers.

Let imagery lead; brand shows through tone, color and composition rather than a logo overlay.
