TransPerfect San Juan Bowl

Logo construction sheet — grid, measurements and spacing, measured from the supplied artwork

Measurements

All distances in x, where x = the height of the yellow banner.

ELEMENT	X-UNITS	NOTES
Badge width	6.9x	100%
Badge height	6.8x	98.6% of width
Yellow banner	6.6x × 1x	14.8% of badge height
Clear space	1x per side	Scales with the badge
Minimum footprint	8.9x × 8.8x	Badge + clear space
Artboard padding	2.7% / 3.7%	H / V, in the file

Spacing & alignment

Clear space = 1x (one banner height) on every side. Nothing — type, rules, edges — enters it.
The badge is exactly centred on the vertical axis of its square artboard — align on centre, never optically.
Every distance scales linearly. At the 25 mm print minimum, x = 3.7 mm.
Minimum sizes — print 25 mm · screen 96 px · embroidery 60 mm wide.

Palette codes

Bowl Navy	#0D0E21	RGB 13·14·33 CMYK 61·58·0·87*
Caribbean Sky	#00AAE7	RGB 0·170·231 CMYK 100·26·0·9*
Banner Gold	#FFD600	RGB 255·214·0 CMYK 0·16·100·0*
White	#FFFFFF	RGB 255·255·255 CMYK 0·0·0·0

*CMYK are unproofed working builds for coated stock — always proof with the vendor. Pantone references are vendor-matched from the artwork. Body text is 100K.
